NOTICE OF MARGIN RATE MODIFICATION ON FOREIGN CURRENCIES

Paragraphs 5) C) and D) of article 7210 of the Rules of Bourse de Montréal Inc. (the “Bourse”) provide for a foreign exchange margin surcharge mechanism which adjusts the margin rate for a currency in Groups 1, 2 or 3 if the volatility of the currency exceeds a predetermined volatility threshold. For any foreign currency in which its exchange rate volatility exceeds defined parameters, there is an automatic margin surcharge required to be effective for a minimum of 30 days from the date of a notice to approved participants.

Based on the volatility of the Canadian dollar exchange rates, the following spot risk margin rates apply until further notice:

- **Australia – Dollar** from **3.30%** to **3.70%**
- **United States – Dollar** remains at **2.40%**

You will find attached a **Margin Violation Summary Report** dated May 11, 2004 listing all currencies in Groups 1, 2 and 3. The self-regulatory organizations monitor the volatility of all foreign currencies in these Groups and periodically issue notices concerning any change in the margin rates applicable to the currencies affected by such a change.
