15507 Daily Price Limit
(22.04.88)

There shall be no daily price limit.

15508 Position Limits
(22.04.88, 08.09.89, 30.12.93, 07.04.94, 20.06.03, 15.05.09)

The maximum number of net long or net short positions in all contract months combined in Canadian bankers' acceptance futures contracts which a person may own or control in accordance with article 14157 shall be as follows:

the greater of 4,000 contracts or of such a limit to be established and published on a monthly basis by the Bourse based on 20% of the average daily open interest for all Canadian bankers' acceptance futures contracts during the preceding three calendar months

or such other position limits as may be determined by the Bourse.

In establishing position limits, the Bourse may apply specific limits to one or more rather than all approved participants or clients, if deemed necessary.

For positions involving options on Canadian Bankers' Acceptance Futures, this rule is superseded by article 6651.

15509 Position Reporting Threshold

(22.04.88, 15.05.09)

15510 Delivery

(22.04.88, 14.06.02)

Delivery of the Canadian bankers' acceptance futures contract shall be by cash settlement. The settlement procedures for same are stipulated at Sub-Sections 15551 to 15600 of the present Rule.

15511 Margin Requirements

(22.04.88, 13.07.92, 19.10.93, 09.03.99, abr. 01.01.05)

**Sub-section 15551 - 15600
Settlement Procedures****15551 Settlement Date**

(16.04.92)

The settlement date of a given contract month shall be the first business day following the last day of trading in the contract month.

15552 Cash Settlement Procedures

(16.04.92, 06.09.96, 16.10.97, 15.10.02)

In the case of one-month and 3-month Canadian bankers' acceptance futures:

- a) The Final Settlement Price as determined below by the Bourse shall be used to settle all open Canadian bankers' acceptance futures:
- on the last day of trading and at the time of termination of trading, the Bourse shall determine the Reference one-month and the Reference 3-month Bankers' Acceptance Rate (yield);
 - final Settlement Price for one-month Canadian Bankers' Acceptance futures contracts shall be 100 minus the Reference one-month Bankers' Acceptance Rate;
 - final Settlement Price for 3-month Canadian Bankers' Acceptance futures contracts shall be 100 minus the Reference 3-month Bankers' Acceptance Rate;
 - Reference one-month and Reference 3-month Bankers' Acceptance Rate:
 - i) means the arithmetic mean rounded to the nearest 1/1000th of a percentage point, (decimal fraction ending in a five (5) or higher shall be rounded up) of the quotations of the bid rates, after elimination of the highest and the lowest quotations, expressed as an annual rate of interest (yield), for the underlying Canadian Bankers' Acceptances determined by the Bourse at 10:15 a.m. (Montreal time) as displayed on the CDOR page (or such other page whatever its designation, on which bid rates for 1-month and 3-month Canadian Bankers' Acceptances are for the time being displayed) on the Reuters Monitor Money Rates

Service, provided that not less than six (6) quotations are available on such Reuters Service;

- ii) if fewer than six (6) quotations are available, or if no such display appears at the relevant time, the Bourse will obtain, from major Canadian banks and Canadian brokers chosen on a random basis, the number of quotations needed to obtain a total of six (6) quotations. The Reference Rate will then be calculated according to the provisions of paragraph i);
- iii) in view of the rapidly changing structure of the Canadian money markets, the Bourse reserves the right to change the above selection process in the determination of the Reference 1-month and the Reference 3-month Bankers' Acceptance Rate.

15553 Failure to Perform
(16.04.92)

Any failure on the part of a buyer or seller to perform in accordance with the aforementioned rules of settlement shall result in the imposition of such penalties and/or damages as may be determined from time to time by the Exchange.

15612 Last Day of Trading
(08.09.89)

No trading shall take place during the last seven business days of the delivery month, for those contracts whose delivery month is the current month.

15613 Delivery Standards

(08.09.89, 20.11.89, 05.03.90, 01.07.92, 01.10.92, 12.07.94, 19.01.95, 05.08.97, 06.11.97, 22.12.99, 03.05.04, 17.11.04, 24.07.06, 16.11.07, 01.09.10)

- a) For the 10-year Government of Canada Bond Futures contract shall be deliverable only those Government of Canada bond issues which:
- i) have a remaining maturity of between 8 and 10½ years, as of the first day of the delivery month (for the purpose of determining the maturity of a bond eligible for delivery and for settlement, the time to maturity of a given issue shall be calculated in complete periods of three months, by rounding down to the nearest entire three-month period, e.g. 10 years and seven months shall be considered 10½ years from the first day of the delivery month);
 - ii) have an outstanding amount of \$3.5 billion nominal value (net of all potential purchases by the Government of Canada up until the end of the period during which the bond issue is deliverable);
 - iii) are originally issued at 10-year auctions (a bond not issued at a 10-year auction which would otherwise meet the standards of this rule, is also deemed to be deliverable, if during the last 12-month period preceding the first Delivery Notice Day of the contract month, its reopenings total a minimum nominal amount of \$3.5 billion);
 - iv) are issued and delivered on or before the 15th day preceding the first Delivery Notice Day corresponding to the delivery month of the contract;
 - v) have a face value at maturity in multiples of CAN \$100,000; and
 - vi) have a coupon of 6%. However, at the seller's choice, a Government of Canada Bond having a coupon other than 6% can be substituted. The amount of premium or discount for each deliverable issue shall be calculated on the basis of a yield equivalent to a Government of Canada Bond bearing a 6% coupon and selling at par.
- b) For the 5-year Government of Canada Bond Futures contract, shall be deliverable only those Government of Canada bond issues which:
- i) have a remaining maturity of between 3 years 6 months and 5 years 3 months, as of the first day of the delivery month (for the purpose of determining the maturity of a bond eligible for delivery and for settlement, the time to maturity of a given issue shall be calculated in complete one month increments, by rounding down to the nearest entire one month period. e.g. 4 years 5 months and 14 days shall be considered 4 years and 5 months from the first day of the delivery month);
 - ii) have an outstanding amount of \$3.5 billion nominal value (net of all potential purchases by the Government of Canada up until the end of the period during which the bond issue is deliverable);

- iii) have an original maturity of not more than 5 years and 9 months (an issue which has an original maturity of more than 5 years and 9 months and which would otherwise meet the standards of this rule, is also deemed to be deliverable, if during the last 12-month period preceding the first Delivery Notice Day of the contract month, its reopenings total a minimum nominal amount of \$3.5 billion, or if it was deliverable in the 10-year Government of Canada Bond Futures contract);
 - iv) are issued and delivered on or before the 15th day preceding the first Delivery Notice Day corresponding to the delivery month of the contract;
 - v) have a face value at maturity in multiples of CAN \$100,000; and
 - vi) have a coupon of 6%. However, at the seller's choice, a Government of Canada Bond having a coupon other than 6% can be substituted. The amount of premium or discount for each deliverable issue shall be calculated on the basis of a yield equivalent to a Government of Canada Bond bearing a 6% coupon and selling at par.
- c) For the 2-year Government of Canada Bond Futures contract expiring before December 2010, shall be deliverable only those Government of Canada bond issues which:
- i) have a remaining maturity of between 1 year 6 months and 2 years 6 months, as of the first day of the delivery month (for the purpose of determining the maturity of a bond eligible for delivery and for settlement, the time to maturity of a given issue shall be calculated in complete one month increments, by rounding down to the nearest entire one month period. e.g. 2 years 1 month and 14 days shall be considered 2 years and 1 month from the first day of the delivery month);
 - ii) have an outstanding amount of \$2.4 billion nominal value (net of all potential purchases by the Government of Canada up until the end of the period during which the bond issue is deliverable);
 - iii) are originally issued at 2-year, 5-year or 10-year Government of Canada bond auctions (a bond which has not been originally issued at a 2-year, 5-year or 10-year Government of Canada bond auction and which would otherwise meet the standards of this rule, is also deemed to be deliverable, if during the last 12-month period preceding the first Delivery Notice Day of the contract month, its reopenings total a minimum nominal amount of \$2.4 billion);
 - iv) are issued and delivered on or before the 15th day preceding the first Delivery Notice Day corresponding to the delivery month of the contract;
 - v) have a face value at maturity in multiples of CAN \$200,000; and
 - vi) have a coupon of 4%. However, at the seller's choice, a Government of Canada Bond having a coupon other than 4% can be substituted. The amount of premium or discount for each deliverable issue shall be calculated on the basis of a yield equivalent to a Government of Canada Bond bearing a 4% coupon and selling at par.
- d) For the December 2010 2-year Government of Canada Bond Futures contract and for subsequent contract months, shall be deliverable only those Government of Canada bond issues which:

- i) have a remaining maturity of between 1 year 6 months and 2 years 6 months, as of the first day of the delivery month (for the purpose of determining the maturity of a bond eligible for delivery and for settlement, the time to maturity of a given issue shall be calculated in complete one month increments, by rounding down to the nearest entire one month period. e.g. 2 years 1 month and 14 days shall be considered 2 years and 1 month from the first day of the delivery month);
 - ii) have an outstanding amount of \$2.4 billion nominal value (net of all potential purchases by the Government of Canada up until the end of the period during which the bond issue is deliverable);
 - iii) are originally issued at 2-year Government of Canada bond auctions (a bond which has not been originally issued at a 2-year Government of Canada bond auction and which would otherwise meet the standards of this rule, is also deemed to be deliverable, if during the last 12-month period preceding the first Delivery Notice Day of the contract month, its reopenings total a minimum nominal amount of \$2.4 billion);
 - iv) are issued and delivered on or before the 15th day preceding the first Delivery Notice Day corresponding to the delivery month of the contract;
 - v) have a face value at maturity in multiples of CAN \$200,000; and
 - vi) have a coupon of 6%. However, at the seller's choice, a Government of Canada Bond having a coupon other than 6% can be substituted. The amount of premium or discount for each deliverable issue shall be calculated on the basis of a yield equivalent to a Government of Canada Bond bearing a 6% coupon and selling at par.
- e) For the 30-year Government of Canada Bond Futures contract shall be deliverable only those Government of Canada Bond issues which:
- i) have a remaining maturity of between 21 and 33 years, as of the first day of the delivery month (for the purpose of determining the maturity of a bond eligible for delivery and for settlement, the time to maturity of a given issue shall be calculated in complete periods of three months, by rounding down to the nearest entire three-month period, e.g. 30 years and seven months shall be considered 30½ years from the first day of the delivery month);
 - ii) have an outstanding amount of \$3.5 billion nominal value (net of all potential purchases by the Government of Canada up until the end of the period during which the bond issue is deliverable);
 - iii) are originally issued at 30-year auctions (a bond not issued at a 30-year auction which would otherwise meet the standards of this rule, is also deemed to be deliverable, if during the last 12-month period preceding the first Delivery Notice Day of the contract month, its reopenings total a minimum nominal amount of \$3.5 billion);
 - iv) are issued and delivered on or before the 15th day preceding the first delivery notice day corresponding to the delivery month of the contract;
 - v) have a face value at maturity in multiples of CAN \$100,000; and
 - vi) have a coupon of 4%. However, at the seller's choice, a Government of Canada Bond having a coupon other than 4% can be substituted. The amount of premium or discount for each

deliverable issue shall be calculated on the basis of a yield equivalent to a Government of Canada Bond bearing a 4% coupon and selling at par.

- f) The price of a deliverable Government of Canada Bond shall be determined according to the conversion factors tables published by the Bourse.

The conversion factor of a deliverable issue is the actualized value of the deliverable issue to the notional yield of the futures contract considered on the first day of the delivery month, minus the interest accrued until delivery day.

- g) The amount to be paid at delivery is equal to \$2,000 multiplied by the conversion factor of the deliverable issue and multiplied by the settlement price of the futures contract being delivered, plus accrued interests to the delivery day. Accrued interest is charged to the approved participant taking delivery.
- h) All Government of Canada Bonds being delivered in respect of a futures contract must be of the same issue.
- i) Before a contract is listed for trading, the Bourse shall have the right to exclude any deliverable Government of Canada bond issue, even if it meets all the standards specified in this Rule.

15614 Delivery Procedure
(08.09.89, 07.10.93)

- a) Members must apply the assignment process used by the Clearing House to assign delivery to each of their accounts. In order that the delivery procedure of the Clearing House not be impaired, members shall keep throughout the contract month, an up-to-date list of the purchase and sale dates of all open positions for that contract month;
- b) Only a member holding a seller's position can initiate the delivery process;
- c) All buyers' and sellers' positions still open in a contract after trading has ceased in the contract shall be settled by delivery;
- d) In the case where a seller's position is still open in a contract after trading has ceased in that contract, and where the member does not initiate the delivery process, the Clearing House shall substitute itself for the member in initiating the delivery process.

15615 Submission of Delivery Notice
(08.09.89, 02.06.95, 03.05.04)

To initiate the delivery process, an approved participant holding a seller's position must submit a delivery notice to the clearing corporation before the time limit set by the clearing corporation on any business day, between the third business day (the second business day for the 2-year Government of Canada Bond futures contract) preceding the first business day of the delivery month, and the third business day (the second business day for the 2-year Government of Canada Bond futures contract) preceding the last business day of the delivery month, inclusively.

15616 Assignment of Delivery Notice
(08.09.89)

- a) The assignment of a delivery notice to a member holding a long position shall be done by the Clearing House, in the manner set forth by the Clearing House;
- b) The member holding an assigned long position shall receive a delivery notice from the clearing house on the business day following the submission of the delivery notice by the member holding the seller's position.

15617 Delivery Day

(08.09.89, 02.06.95, 03.05.04)

Delivery in respect to Government of Canada Bond Futures shall be done on the third business day (on the second business day for the 2-year Government of Canada Bond futures contract) following the submission of the delivery notice by the approved participant holding a seller's position, or on any other day as determined by the clearing corporation. Delivery shall be completed no later than the last business day of the delivery month.

15618 Execution Default

(08.09.89, 03.05.04)

All defaults from approved participants in respect to delivery procedures shall carry the imposition of a penalty, as determined from time to time by the Bourse.

15619 Emergencies, Acts of God, Actions of Governments

(08.09.89, 19.01.95, 05.08.97, 22.12.99, 03.05.04, 16.11.07, 01.09.10)

- a) In the eventuality that a delivery operation cannot be carried because of a strike, a fire, an accident, a Government action, an act of God or any other emergency situation, the holder of a buyer's position or a seller's position shall immediately notify the Bourse and the clearing corporation. In the eventuality that the Bourse or the clearing corporation finds that an immediate action is necessary, a special meeting of the Board of Directors shall be called on the matter and any decision rendered in such circumstances shall be binding on all parties to futures contracts. If the Board of Directors decides that an emergency situation is in progress, the Board of Directors shall take all necessary actions in the circumstances, and the decision of the Board of Directors shall bind all parties to the futures contract. The Board of Directors could, for instance, extend the delivery period or indicate a different location for delivery operations.
- b) In the eventuality where the Board of Directors decides that a shortage of deliverable Government of Canada Bond issues exists or might exist, it shall take all necessary action to correct, prevent or alleviate the situation. The Board of Directors could, for instance:
 - i) designate as a deliverable issue any other Government of Canada Bond that does not meet the criteria in this Rule;
 - ii) in addition to the normal delivery procedures, decide of a cash settlement based on the cash value of a Government of Canada Bond bearing the coupon rate specified in the rules applicable to each designated 2-year, 5-year, 10-year or 30-year Government of Canada Bond futures contract, as determined by using the yield curve of Government of Canada Bonds on the last day of trading.

Disclaimer

15731 Limitation of Standard & Poor's Liability Disclaimer
(07.09.99; 22.10.09)

Standard and Poor's, a division of The McGraw-Hill Companies, Inc. (S&P), licenses Bourse de Montréal Inc. to use various S&P TSX indices (« indices ») in connection with the trading of futures exchange-traded contracts and options on futures exchange-traded contracts and options exchange-traded contracts based upon such indices. S&P, its affiliates and their third party licensors shall have no liability for any damages, claims, losses or expenses caused by any errors, omissions or delays in calculating or disseminating the indices.

S&P, its affiliates and their third party licensors make no representation or warranty regarding the advisability of investing in securities generally or the ability of any of the indices to track general stock market performance. S&P, its affiliates and their third party licensors have no obligation to take the needs of the traders of futures exchange-traded contracts, options on futures exchange-traded contracts, options exchange-traded contracts in determining, composing or calculating the indices.

Neither S&P, its affiliates nor their third party licensors guarantee the adequacy, accuracy timeliness, or completeness of the indices or any data included therein or any communications, including, but not limited to, oral or written communications (including electronic communications) with respect thereto. S&P, its affiliates and their third party licensors shall not be subject to any damages or liability for any errors, omissions or delays in calculating or disseminating the indices. Neither S&P, its affiliates nor their third party licensors make any representation, warranty, express or implied, as to the results to be obtained by any person or any entity from the use of the indices or any data included therein in connection with the trading of futures exchange-traded contracts, options on futures exchange-traded contracts, options exchange-traded contracts, or any other use. S&P, its affiliates and their third party licensors make no express or implied warranties, and expressly disclaim all warranties of merchantability or fitness for a particular purpose or use with respect to the indices or any data included therein. Without limiting any of the foregoing, in no event shall S&P, its affiliates or their third party licensors be liable for any indirect, special, incidental, punitive or consequential damages (including, but not limited to, loss of profits, trading losses, lost time or good will), even if they have been advised of the possibility of such damages, and irrespective of the cause of action, whether in contract, tort, strict liability or otherwise.

CANADIAN AND INTERNATIONAL SHARE FUTURES CONTRACTS

Section 15801 – 15900
Specific Trading Provisions
(31.01.01)

15801 Eligibility criteria
(31.01.01)

In order for a Canadian or international share futures contract to be traded on the Exchange, the underlying share shall be a share which is currently traded on a recognized exchange and which option or futures contract is listed on this same exchange or on any other recognized exchange.

For the purpose of the present Rule, the term “recognized exchange” means any exchange carrying on its activities on the territory of one of the Basle Accord Countries and those countries that have adopted the banking and supervisory rules set out in the Basle Accord, and any other exchange or group of exchanges with whom the Montreal Exchange has signed a collaboration agreement

15802 Contract Months
(31.01.01)

Trading in Canadian and international share futures contracts shall be scheduled for delivery or cash settlement quarterly or monthly, as provided for in article 6804 of the Rules of the Exchange.

15803 Trading Hours
(31.01.01, abr. 06.01.03)

15804 Trading Unit
(31.01.01, 29.04.02)

The Bourse, in consultation with the Canadian Derivatives Clearing Corporation, shall establish the unit of trading for each futures contract that has been approved for trading.

15805 Currency
(31.01.01)

Trading and settlement shall be in the currency provided for in article 6803 of the Rules.

15806 Price Quotation
(31.01.01)

Bids and offers on futures contracts on Canadian and international shares shall be quoted in accordance with article 6802 of the Rules.

15807 Price Fluctuation Unit
(31.01.01)

Price fluctuation for futures contracts on Canadian shares shall be, at a minimum, in multiples of 0.01 per share as provided in article 6807 of the Rules.

For futures contracts on international shares, the unit of fluctuation shall be established at a minimum corresponding to the unit of fluctuation used by the market on which the underlying share is being traded as provided in article 6807 of the Rules.

15808 Daily Price Limit
(31.01.01)

The daily price limit shall be as specified in article 6807 of the Rules.

15809 Position Limits
(31.01.01, 29.04.02, 15.05.09)

- A) The maximum net long or net short positions in futures contracts on Canadian or international shares which a person may own or control in accordance with article 14157 of the Rules of the Bourse shall be as follows and this for all contract months combined of each future contract having the same underlying security:
- i) The number of contracts equivalent to 1,350,000 shares where the underlying security does not meet the requirements set out in sub-paragraphs ii), iii), iv) or v) hereafter;
 - ii) The number of contracts equivalent to 2,250,000 shares, where either the most recent interlisted six-month trading volume of the underlying interest totals at least 20 million shares, or the most recent interlisted six-month trading volume on the underlying interest totals at least 15 million shares and at least 40 million shares are currently outstanding;
 - iii) The number of contracts equivalent to 3,150,000 shares, where either the most recent interlisted six-month trading volume in the underlying interest totals at least 40 million shares, or the most recent interlisted six-month trading volume on the underlying interest totals at least 30 million shares and at least 120 million shares are currently outstanding.
 - iv) The number of contracts equivalent to 6,000,000 shares, where either the most recent interlisted six-month trading volume in the underlying interest totals at least 80 million shares, or the most recent interlisted six-month trading volume on the underlying interest totals at least 60 million shares and at least 240 million shares are currently outstanding.
 - v) The number of contracts equivalent to 7,500,000 shares, where either the most recent interlisted six-month trading volume in the underlying interest totals at least 100 million shares, or the most recent interlisted six-month trading volume on the underlying interest totals at least 75 million shares and at least 300 million shares are currently outstanding.

B) Exemption

As described in Policy C-1, a member may file with the Bourse an application to obtain on behalf of a bona fide hedger an exemption from the position limits prescribed in this article. The application must be filed on the appropriate form, no later than the next business day after the limit has been exceeded. If the application is rejected, the member shall reduce the position below the prescribed limit within the period set by the Bourse. The Bourse may modify any exemption which has been previously granted. A bona fide hedger may also under certain circumstances file directly with the Bourse, in the form prescribed, an application to obtain an exemption from the position limits prescribed by the Bourse.

In establishing position limits, the Bourse may apply specific limits to one or more rather than all members or clients, if deemed necessary.

15810 Reporting Limit
(31.01.01, 29.04.02)

Approved participants shall report to the Bourse, in such manner as prescribed by the Bourse, all combined positions, regardless of the delivery or exercise months, which exceed the number of futures contracts on Canadian and international stocks equivalent to 25,000 shares, being understood that such obligation to report applies separately to each future contract having a different underlying, or such other limit as may be determined by the Bourse.

15811 Delivery or settlement
(31.01.01)

Delivery of Canadian shares shall be made in the manner prescribed in articles 15813 to 15818 of the Rules or by the Clearing Corporation.

Settlement of International shares shall be by cash through the Clearing Corporation. The settlement procedures are those provided for in articles 15821 to 15830 of the Rules.

15812 Last Trading Day
(31.01.01)

The last trading day shall be the one defined in article 6812 of the Rules.

15813 Delivery Standards for Canadian shares
(31.01.01)

Shall be deliverable only those Canadian shares that are the direct underlying security of the futures contract being subject to delivery.

15814 Delivery Procedure
(31.01.01)

- a) Members must apply the assignment process used by the Clearing Corporation to assign delivery to each of their accounts;
- b) Only a member holding a seller's position can initiate the delivery process;

- c) All buyers' and sellers' positions still open in a contract after trading has ceased in the contract shall be settled by delivery;
- d) In the case where a seller's position is still open in a contract after trading has ceased in that contract, and where the member does not initiate the delivery process, the Clearing Corporation shall substitute itself for the member in initiating the delivery process.

15815 Submission of Delivery Notice
(31.01.01)

To initiate the delivery process, a member holding a seller's position must submit a delivery notice to the Clearing Corporation before the time limit set by the Clearing Corporation after the close of the last trading day.

15816 Assignment of Delivery Notice
(31.01.01)

- a) The assignment of a delivery notice to a member holding a long position shall be done by the Clearing Corporation, in the manner set forth by the Clearing Corporation;
- b) The member holding an assigned long position shall receive a delivery notice from the Clearing Corporation on the business day following the submission of the delivery notice by the member holding the seller's position.

15817 Delivery Day
(31.01.01)

Delivery in respect to futures contracts on Canadian shares must be done in the manner prescribed by the Exchange and the Clearing Corporation following the submission of the delivery notice by the member holding a seller's position.

15818 Execution Default
(31.01.01)

All defaults from members in respect to delivery procedures shall carry the imposition of a penalty, as determined from time to time by the Exchange.

15819 Emergencies, Acts of God, Actions of Governments
(31.01.01)

- a) In the eventuality that a delivery operation cannot be carried because of a strike, a fire, an accident, a Government action, an act of God or any other emergency situation, the holder of a buyer's position or a seller's position shall immediately notify the Exchange and the Clearing Corporation. In the eventuality that the Exchange or the Clearing Corporation finds that an immediate action is necessary, a special meeting of the Governing Committee shall be called on the matter and any decision rendered in such circumstances shall be binding on all parties to futures contracts. If the Governing Committee decides that an Emergency situation is in progress, the Governing Committee shall take all necessary actions in the circumstances, and the decision of the Governing Committee shall bind all parties to the futures contract. The Governing Committee could, for instance, extend the delivery period or indicate a different location for delivery operations.

- b) In the eventuality where the Governing Committee decides that a shortage of deliverable of Canadian shares issues exists or might exist, it shall take all necessary action to correct, prevent or alleviate the situation. The Governing Committee could, for instance:
- i) designate as a deliverable issue any other issue of the same issuer that does not meet the criteria in this Rule;
 - ii) in addition to the normal delivery procedures, decide of a cash settlement based on the cash value of a Canadian share on the last day of trading.

15820 Adjustment to Terms of Contract
(31.01.01)

The terms of a share futures contract are subject to adjustment in accordance with the By-Laws and Rules of the Exchange, or with General Conditions of the Clearing Corporation. When adjustments are made, a notice thereof shall be promptly given to members.

Sub-section 15821 - 15830
Settlement Procedures for futures contracts on Canadian and International shares

15821 Settlement Procedures
(31.01.01)

- a) Canadian shares futures contracts are subject to settlement after the close of the last trading day by the delivery of the underlying shares on the final settlement day pursuant to the rules of the Clearing Corporation.
- b) For International shares futures contracts, all open positions at the close of the last trading day are marked-to-market using the final settlement price on the final settlement day and terminated by cash settlement pursuant to the rules of the Clearing Corporation.

15822 Final Settlement Day
(31.01.01)

- a) For the Canadian share futures contract, the final settlement day shall be the third business day after the last trading day.
- b) For International share futures contracts, the final settlement day of a given contract month shall be the first business day following the last day of trading in the contract month.

15823 Final Settlement Price
(31.01.01)

- a) For Canadian shares futures contracts, the final settlement price shall be the last trade price recorded in the stock underlying the futures contract at the close of regular trading hours at the Toronto Stock Exchange, or by such other method as may be prescribed by the Exchange.
- b) For International shares futures contracts, the final settlement price determined on the final settlement day shall be the price of the underlying stock as determined by the recognized exchange to compute the final settlement price of the corresponding stock index futures contract for which the underlying stock is a constituent, or by such other method as prescribed by the Exchange.

Sub-section 15901 - 15920
Specific Trading Provisions

- 15901 Contract Months**
(14.06.02)

Unless otherwise determined by the Bourse, the contract months for trading in 30-day overnight repo rate futures contracts shall be as indicated in article 6804 of Rule Six of the Bourse.

15902 Trading Hours
(14.06.02, abr. 06.01.03)

15903 Trading Unit
(14.06.02)

Unless otherwise determined by the Bourse, the unit of trading for the 30-day overnight repo rate futures shall be as indicated in article 6801 of Rule Six of the Bourse.

15904 Currency
(14.06.02)

Trading, clearing and settlement shall be in Canadian dollars.

15905 Price Quotation
(14.06.02)

Unless otherwise determined by the Bourse, bids and offers for the 30-day overnight repo rate futures shall be as indicated in article 6802 of Rule Six of the Bourse.

15906 Minimum Price Fluctuation Unit
(14.06.02)

Unless otherwise determined by the Bourse, the minimum price fluctuation unit shall be as indicated in article 6807 of Rule Six of the Bourse.

15907 Daily Price Limit
(14.06.02)

There shall be no daily price limit.

15908 Position Limits
(14.06.02, 15.05.09)

The maximum number of net long or net short positions in all contract months combined in 30-day repo rate futures contracts which a person may own or control in accordance with article 14157 shall be as follows:

- a) for speculators 5,000 contracts
- b) for hedgers the greater of 7,000 contracts or of such a limit to be established and published on a monthly basis by the Bourse based on 20% of the average daily open interest for all 30-day overnight repo rate futures contracts during the preceding three calendar months

or such other position limits as may be determined by the Bourse.

In establishing position limits, the Bourse may apply specific limits to one or more rather than all approved participants or clients, if deemed necessary.

15909 Position Reporting Threshold
(14.06.02, 15.05.09)

Approved participants shall report to the Bourse all positions which, when combining all contract expiries, exceed 300 30-day overnight repo rate futures contracts, or such other number as may be determined by the Bourse, in such form and in such manner as shall be prescribed by the Bourse.

15910 Delivery
(14.06.02)

Delivery shall be by cash settlement through the clearing corporation. The settlement procedures are stipulated in articles 15921 to 15930.

15911 Margin Requirements
(14.06.02, abr. 01.01.05)

Sub-section 15921 - 15930
Final Settlement Procedures

15921 Final Settlement Date
(14.06.02)

The final settlement date of a given contract month shall be the first business day following the last day of trading.

15922 Cash Settlement Procedures
(14.06.02, 03.11.03)

In the case of 30-day overnight repo rate futures contracts:

- a) On the last day of trading, open contracts will be marked to market based on the daily settlement price. A final settlement price will be determined on the Final Settlement Date.
- b) The Final Settlement Price as determined below by the Bourse shall be used to settle all open 30-day overnight repo rate futures:
 - i) on the Final Settlement Date, the Bourse shall determine the overnight repo reference rate;
 - ii) Final Settlement Price for the 30-day overnight repo rate futures shall be 100 minus the overnight repo reference rate;
 - iii) the overnight repo reference rate:
 - 1) means the arithmetic average of the overnight repo rate during the contract month. For example, on the final settlement day, during a month when the overnight repo rate averaged 2%, the 30-day overnight repo rate futures contract would settle at 98.00. The arithmetic monthly average of the overnight repo rate will be rounded to the nearest tenth of a basis point. The decimal fraction ending in a five (5) or higher shall be rounded up.

- 2) The average is a simple arithmetic average corresponding to the sum of the daily overnight repo rates divided by the number of calendar days in the month. Weekend and holiday rates are considered to be the rate applicable on the previous business day. For example, Friday's rate is used for Saturday and Sunday rates.
- 3) In view of the rapidly changing structure of the Canadian money markets, the Bourse reserves the right to change the above selection process in the determination of the overnight repo reference rate.

15923 Failure to Perform
(14.06.02)

Any failure on the part of an approved participant in accordance with the aforementioned settlement procedures shall result in the imposition of such penalties as may be determined from time to time by the Bourse.

Section 15931 – 15950
FUTURES CONTRACTS ON CARBON DIOXIDE EQUIVALENT (CO₂e) UNITS WITH
PHYSICAL SETTLEMENT

Sub-section 15931 – 15948
Specific Trading and Delivery Provisions

15931 Definitions
(30.05.08)

"Carbon dioxide equivalent (CO₂e)" means a unit of measure used to allow the comparison between greenhouse gases that have different global warming potentials.

"Carbon dioxide equivalent (CO₂e) unit" means any right, benefit, title or interest recognized by a governmental or legislative authority in Canada, associated partly or in its entirety to a reduction of the emissions of greenhouse gases expressed in carbon dioxide equivalent (CO₂e).

15932 Contract Expirations
(30.05.08)

Unless otherwise determined by the Bourse, the contract expiries available for trading in futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement shall be as indicated in article 6804 of Rule Six of the Bourse.

15933 Trading Unit
(30.05.08)

Unless otherwise determined by the Bourse, the unit of trading for futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement shall be as indicated in article 6801 of Rule Six of the Bourse.

15934 Currency
(30.05.08)

Trading, clearing and settlement for futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement shall be in Canadian dollars.

15935 Price Quotation
(30.05.08)

Unless otherwise determined by the Bourse, bids and offers for futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement shall be as indicated in article 6802 of Rule Six of the Bourse.

15936 Minimum Price Fluctuation Unit
(30.05.08)

Unless otherwise determined by the Bourse, the minimum price fluctuation unit for futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement shall be as indicated in article 6807 of Rule Six of the Bourse.

15937 Daily Price Limit
(30.05.08)

There shall be no daily price limit for futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement.

15938 Position Limits
(30.05.08)

The maximum net long or net short position in each designated futures contract on carbon dioxide equivalent (CO₂e) units with physical settlement which a person may own or control shall be as follows:

Position limit for all contract expiries combined for each futures contract on carbon dioxide equivalent (CO₂e) units with physical settlement:

The greater of a maximum number of contracts to be determined by the Bourse or of 20% of the average daily open interest for all contract expiries during the preceding three calendar months; or

Such other limit as may be determined by the Bourse.

As provided by Policy C-1 of the Bourse, an approved participant may file with the Bourse an application to obtain, on behalf of a bona fide hedger, an exemption from the position limits established by the Bourse. The application must be filed in the form and within the delays prescribed by the Bourse and must contain all the information required in Section 1.3 of Policy C-1 of the Bourse. If the application is rejected, the approved participant shall reduce the position so that it does not exceed the prescribed limit within the period set by the Bourse. The Bourse can modify any exemption which has been previously granted. A bona fide hedger may also, under certain circumstances, file directly with the Bourse, in the form prescribed, an application to obtain an exemption from the position limits prescribed by the Bourse.

In establishing position limits, the Bourse may, if deemed necessary, apply specific limits to one or more rather than all approved participants or clients.

15939 Position Reporting Threshold

(30.05.08)

Approved participants shall report to the Bourse all positions which, when combining all contract expiries, exceed 250 futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement, or such other number as may be determined by the Bourse, in such form and in such manner as shall be prescribed by the Bourse.

15940 Physical Settlement

(30.05.08)

Physical settlement of the carbon dioxide equivalent (CO₂e) units underlying the futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement shall be made in the manner prescribed in articles 15942 to 15948 of this Rule and by the clearing corporation.

15941 Last Day of Trading

(30.05.08)

The last day of trading of futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement will be the third business day preceding the last business day of the contract expiry. For contracts with daily expiries, the last day of trading will be the first trading day of the contract.

15942 Physical Settlement Standards

(30.05.08)

- a) For futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement, the only carbon dioxide equivalent (CO₂e) units acceptable for physical settlement shall be those specified by the Bourse from time to time.
- b) Before a futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement is listed for trading, the Bourse shall have the right to exclude from the physical settlement of such futures contract any carbon dioxide equivalent (CO₂e) unit it deems appropriate to exclude, even if such unit meets all the standards specified by the Bourse.

15943 Physical Settlement Procedure

(30.05.08)

- a) Approved participants must apply the assignment process used by the clearing corporation to assign physical settlements to each of their accounts.
- b) Only an approved participant holding a short position in a futures contract on carbon dioxide equivalent (CO₂e) units can initiate the physical settlement process.
- c) All buyers' and sellers' positions still open in futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement after trading has ceased in the contract shall be settled by physical settlement.

- d) In the case where a short position is still open in futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement after trading has ceased in that futures contract, and where the approved participant has not initiated the physical settlement process, the clearing corporation shall substitute itself for the approved participant in initiating such process.
- e) An alternative delivery procedure is available to buyers and sellers who have been matched by the clearing corporation subsequent to the termination of trading in the expired contract. If buyer and seller agree to complete the physical settlement under terms different from those prescribed by the clearing corporation, they may proceed on that basis after submitting a confirmation of agreement to such alternative procedure to the clearing corporation. A copy of this confirmation must also be transmitted to the Regulatory Division of the Bourse.

15944 Submission of Physical Settlement Notice
(30.05.08)

To initiate the physical settlement process of a futures contract on carbon dioxide equivalent (CO₂e) units with physical settlement, an approved participant holding a seller's position must submit a physical settlement notice to the clearing corporation on the last trading day.

15945 Assignment of Physical Settlement Notice
(30.05.08)

- a) The assignment of a physical settlement notice to an approved participant holding a long position shall be done by the clearing corporation in the manner set forth by the clearing corporation.
- b) Approved participants holding long positions in futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement shall receive a physical settlement notice from the clearing corporation on the business day following the submission of physical settlement notices by approved participants holding short positions in such futures contracts.

15946 Physical Settlement Day
(30.05.08)

Physical settlement in respect of futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement shall be done on the third business day following the submission of physical settlement notices by the approved participants holding short positions, or on any other day as determined by the clearing corporation.

15947 Physical Settlement Default
(30.05.08)

A physical settlement default may occur if the seller does not transfer the acceptable carbon dioxide equivalent (CO₂e) units in accordance with the conditions prescribed by the clearing corporation or if the buyer does not accept these units in accordance with these same prescribed conditions. Any default from an approved participant to comply with physical settlement procedures may result in the imposition of disciplinary sanctions, as determined from time to time by the Bourse.

15948 Force Majeure
(30.05.08)

In the eventuality that a physical settlement operation cannot be completed because of a “force majeure”, such as a strike, a fire, an accident, a government action, an act of God or any other emergency situation, the holder of a long position or a short position in futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement shall immediately notify the Bourse and the clearing corporation. In the eventuality that the Bourse and the clearing corporation find that an immediate action is necessary, a special meeting of the Board of Directors of the Bourse shall be called on the matter and any decision rendered in such circumstances shall be binding on all parties holding long or short positions in futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement. If the Board of Directors of the Bourse deems that an emergency situation is in progress, the Board of Directors of the Bourse shall take all necessary actions in the circumstances, and the decision of the Board of Directors of the Bourse shall be binding on all parties holding long or short positions in futures contracts on carbon dioxide equivalent (CO₂e) units with physical settlement.

In the specific situation where the trading system related to the carbon dioxide equivalent (CO₂e) unit is no longer scheduled to proceed, is not implemented by any governmental or legislative authority in Canada or is to be discontinued by any governmental or legislative authority in Canada, the Board of Directors of the clearing corporation shall decide on the cash settlement of the futures contracts on carbon dioxide equivalent (CO₂e) units at a price that reflects a minimum quality standard established by recognized standards organizations to be determined from time to time by the Bourse.

Section 15951 – 15970**FUTURES CONTRACTS ON CARBON DIOXIDE (CO₂e) EQUIVALENT UNITS WITH CASH SETTLEMENT****Sub-section 15951 – 15962**
Specific Trading Provisions**15951 Definitions**
(30.05.08)

"Carbon dioxide equivalent (CO₂e)" means a unit of measure used to allow the comparison between greenhouse gases that have different global warming potentials.

"Carbon dioxide equivalent (CO₂e) unit" means any right, benefit, title or interest recognized by a governmental or legislative authority in Canada, associated partly or in its entirety to a reduction of the emissions of greenhouse gases expressed in carbon dioxide equivalent (CO₂e).

15957 Daily Price Limit
(30.05.08)

There shall be no daily price limit for futures contracts on carbon dioxide equivalent (CO₂e) units with cash settlement.

15958 Position Limits
(30.05.08)

The maximum net long or net short position in each designated futures contract on carbon dioxide equivalent (CO₂e) units with cash settlement which a person may own or control shall be as follows:

Position limit for all contract expiries combined for each futures contract on carbon dioxide equivalent (CO₂e) units with cash settlement:

The greater of a maximum number of contracts to be determined by the Bourse or of 20% of the average daily open interest for all contract expiries during the preceding three calendar months; or

Such other limit as may be determined by the Bourse.

As provided by Policy C-1 of the Bourse, an approved participant may file with the Bourse an application to obtain, on behalf of a bona fide hedger, an exemption from the position limits established by the Bourse. The application must be filed in the form and within the delays prescribed by the Bourse and must contain all the information required in Section 1.3 of Policy C-1 of the Bourse. If the

application is rejected, the approved participant shall reduce the position so that it does not exceed the prescribed limit within the period set by the Bourse. The Bourse can modify any exemption which has been previously granted. A bona fide hedger may also, under certain circumstances, file directly with the Bourse, in the form prescribed, an application to obtain an exemption from the position limits prescribed by the Bourse.

In establishing position limits, the Bourse may, if deemed necessary, apply specific limits to one or more rather than all approved participants or clients.

15959 Position Reporting Threshold
(30.05.08)

Approved participants shall report to the Bourse all positions which, when combining all contract expiries, exceed 250 futures contracts on carbon dioxide equivalent (CO₂e) units with cash settlement, or such other number as may be determined by the Bourse, in such form and in such manner as shall be prescribed by the Bourse.

15960 Cash Settlement
(30.05.08)

Cash settlement of futures contracts on carbon dioxide equivalent (CO₂e) units with cash settlement shall be through the clearing corporation. The final settlement procedures are those stipulated in articles 15963 to 15970.

15961 Last Day of Trading
(30.05.08)

The last day of trading of futures contracts on carbon dioxide equivalent (CO₂e) units with cash settlement will be the third business day preceding the last business day of the contract expiry. For contracts with daily expiries, the last day of trading is the first trading day of the contract.

15962 Force Majeure
(30.05.08)

In the eventuality that the final cash settlement procedures cannot be completed because of a “force majeure”, such as a strike, a fire, an accident, a government action, an act of God or any other emergency situation, the holder of a long position or a short position in futures contracts on carbon dioxide equivalent (CO₂e) units with cash settlement shall immediately notify the Bourse and the clearing corporation. In the eventuality that the Bourse and the clearing corporation find that an immediate action is necessary, a special meeting of the Board of Directors of the Bourse shall be called on the matter and any decision rendered in such circumstances shall be binding on all parties holding long or short positions in futures contracts on carbon dioxide equivalent (CO₂e) units with cash settlement. If the Board of Directors of the Bourse decides that an emergency situation is in progress, the Board of Directors of the Bourse shall take all necessary actions in the circumstances, and the decision of the Board of Directors of the Bourse shall be binding on all parties holding long or short positions in futures contracts on carbon dioxide equivalent (CO₂e) units with cash settlement.

In the specific situation where the trading system related to the carbon dioxide equivalent (CO₂e) unit is no longer scheduled to proceed, is not implemented by any governmental or legislative authority in Canada or is to be discontinued by any governmental or legislative authority in Canada, the Board of Directors of the clearing corporation shall decide on the cash settlement of the futures contracts on carbon

dioxide equivalent (CO₂e) units at a price that reflects a minimum quality standard established by recognized standards organizations to be determined from time to time by the Bourse.

Sub-section 15963 - 15970
Final Settlement Procedures

15963 Final Cash Settlement Date
(30.05.08)

The final cash settlement date of a given futures contract on carbon dioxide equivalent (CO₂e) units with cash settlement shall be the first business day following the last day of trading of the expired contract.

15964 Cash Settlement Procedures
(30.05.08)

In the case of futures contracts on carbon dioxide equivalent (CO₂e) units with cash settlement:

- a) On the last day of trading, open futures contracts on carbon dioxide equivalent (CO₂e) units will be marked to market based on the final settlement price.
- a) On the final settlement date, the final settlement price, as determined by the Bourse, shall be used to settle all open positions in futures contracts on carbon dioxide equivalent (CO₂e) units with cash settlement.
