

Technical Notice

11-021

TO: Montreal Exchange Approved Participants (APs) and Foreign Approved Participants (FAPs)
FROM: Technical Help Desk
SUBJECT: LOPR VPN Access Interruption for November 3rd 2011.
DATE: November 3rd, 2011

Maintenance activities performed by our network team will impact the VPN availability between 8 PM and 3 AM, tonight November 3rd. We therefore strongly recommended that no transmission via the VPN is done during that period. The system will be available until 8 AM on the morning of November 4th, 2011, for the previous day's position transmission.

We apologize for the short delay in which we are getting this information out and for any inconvenience that this may cause.
