Technical Notice 20-005

TMX Service Request Connectivity update

HSVF D6 protocol
OBF A2 protocol

This notice serves as a reminder of our Technical Notice 20-001, which confirmed the upcoming release of the **HSVF D6 and OBF A2** multicast protocols. Please be advised that all current broadcast protocols will continue to be supported following this release. However, HSVF D4 and OBF A1 non-BTIC protocols will be decommissioned in **Q4 2020**.

The new TMX Service Request Form (TSRF) is now available with connectivity information for the **HSVF D6 & OBF A2**.

Note that due to the current Covid 19 precautions, there is presently a network change freeze until March 30th, your change request will still be accepted, but the regular duration of up to 7 business days will start on the day the freeze will end.

Please contact the market operation's technical service desk at the coordinates below to obtain the TSRF, or if you have any question pertaining to this notice.

Regards,

Technical Service Desk
