CIRCULAR 155-25
December 1, 2025

AMENDMENTS TO THE LIST OF FEES OF BOURSE DE MONTRÉAL INC.
(EFFECTIVE JANUARY 2, 2026)

Bourse de Montréal Inc. hereby announces the following amendments to its List of Fees effective **January 2, 2026**. The new List of Fees in blackline and clean version is attached for your information.

Amendments to the list of fees for technical services and to the name of a service package:

- The monthly fees per Approved Participant for service packages will be increased, and the ISV service package will be renamed Proprietary Software Owner (PSO).

For additional information, please contact the Derivatives Products team at derivative.trading@tmx.com.

Robert Tasca
Managing Director, Derivatives Products and Services

MONTRÉAL EXCHANGE

List of Fees

Effective as of Jan 2nd, 2026

Fees for transactions per contract per side

Fixed-income derivatives

	Client	Firm*	PTP[1]	LPS[2]
CRA	$0.82	$0.70	$0.16	
COA**	$0.82	$0.70	$0.16	
CGZ	$0.50	$0.33	$0.19	$0.13
CGF	$0.82	$0.33	$0.19	$0.13
CGB	$0.82	$0.33	$0.19	$0.13
LGB	$2.30	$0.90	$0.40	
Options	$0.50	$0.30	$0.20	

Equity index futures

	Client	Firm	PTP[1]
SXF	$1.25	$0.35	$0.35
AXF (Expiry equal or less than 24 months)	$2.05	$2.05	$2.05
AXF (Expiry over 24 months)	$4.15	$4.15	$4.15
SXM	$0.21	$0.09	$0.06
SDV	$1.05	$1.05	$0.31
SCG	$1.05	$0.33	$0.31
SEG	$1.05	$0.33	$0.31
SCF	$0.82	$0.33	$0.21

* Participants in the Primary Dealer Program receive the Firm fee for CGZ, CGF, CGB, LGB, and OGB.

[1] Eligibility and Continued Qualification Criteria for the Proprietary Trader Program (PTP) are in footnotes 1 and 2 of the appendix
[2] Eligibility Criteria for Liquidity Provider Status (LPS) are in footnote 3 of the appendix

Additional fees per contract for Exchange for Physical (EFP) and Exchange for Risk (EFR)

Fee for all futures except share futures	$0.25
Share futures	$0.00

Average Price Service

Give-ups (charged to the receiving Approved Participant)	$0.05
Allocations within the same Approved Participant	$0.00

PROGRAMS

EFP and EFR
For information on the Exchange for Physical or the Exchange for Risk, click here for EFP, and click here for EFR.

Equity*, ETF, index and currency options

Fees for regular transactions and fees for pre-arranged transactions (crosses) with size under 500

	Client	Firm	PTP[1]	Market maker
Equity options*	$0.50	$0.50	$0.16	$0.16
ETF options	$0.35	$0.35	$0.16	$0.16
SXO	$0.60	$0.60		
SXJ and SXV	$0.25	$0.25		
Currency options	$0.50	$0.50		

Fees for Auction

	Client	Client fee cap	Firm	Firm fee cap	Market Maker	Market Maker Fee Cap

Equity options*	$0.43	$2150/leg	$0.16	$800/leg	$0.16	$800/leg
ETF options	$0.35	$1750/leg	$0.16	$800/leg	$0.16	$800/leg

Fees for pre-arranged transactions (crosses) with size above or equal to 500

	Client	Client fee cap	Firm	Firm fee cap	Market Maker	Market Maker Fee Cap
Equity options*	$0.43	$2150/leg	$0.16	$800/leg	$0.16	$800/leg
ETF options	$0.35	$1750/leg	$0.16	$800/leg	$0.16	$800/leg
SXJ and SXV	$0.25	$2500/leg	$0.25	$2500/leg		
Currency options	$0.50	$5000/leg	$0.25	$2500/leg		

***** Including options on Canadian Depositary Receipts (CDRs) and options on Closed-End Funds (CEFs).
[1] Terms and conditions for the Proprietary Trader Program (PTP) are in footnote 1 in the appendix.

Share futures (single-stock, ETF, and trust units) and sector index futures

Fee formula:	Multiplier x (Maturity date − trade date) / 365 x trade price x trading unit	
Multiplier for share futures		0.00032
Multiplier for sector index futures		0.00016
Maturity date:	Maturity date of the contract	
Trade date:	Date on which the trade is executed	
Trade price:	Price at which the contract is traded	
Trading unit:	Number of shares underlying one contract	

For share-futures transactions under 100 contracts, the fee is $0.16.

For share-futures trades of 100 contracts and above and for sector index futures, the transaction fee (per contract, per side) calculated using the formula above is rounded to two decimals. The difference between the maturity date and the trade date is the number of calendar days between them not including the maturity date itself.

Example computation of the fee

For a hypothetical share-futures trade of XYZ for 10,000 contracts, supposing the price is $50, the trade date is 1 June 2024, and the maturity date is 16 June 2024, the transaction fee per contract would be:

(0.00032 x (Jun16 - Jun01) / 365 x Trade price x Trading unit) =
(0.00032 x 15 days / 365 x ($50 per share x 100 shares)) = 0.06575

The fee, rounded to two decimals, is $0.07.

The total amount owing would be $0.07 x 10,000 contracts = $700.

Fees for technical services

Monthly fees per AP for service packages and allocations of services by package

	PSO*	Basic**	Standard	Options MM	Deluxe	Services booster
	$625	$1,250	$4,169	$2,085	$8,130	$1,563

Choose one of the services above	-	-	-	-	-	10

* Proprietary Software Owner
** Software support is included in all service packages except Basic.

History retrieval

Private history retrieval: $100 per day* associated with history ($1,000 fee cap per request)**; request cannot be for more than 30 days of data.***

*Example: if the history spans one (1) day, the fee will be $100; if the history spans two (2) days, the total cost will be $200.
**Example: if the history spans 10 days, the fee will be $1,000; if it spans 20 days, the total cost will be $1,000.
***Example: if 60 days of data are needed, this will constitute two (2) requests. The first request will be for 30 days of data, subject to a $1,000 fee cap, and the second request will be for 30 days of data, subject to a $1,000 fee cap.

Participants may select multiple service packages and may select more than one package.

Definitions of technical services

TMS + APS or FIX TM

- **TMS** is the Trade Management System, an application that handles post-trade allocations and that provides real-time trade reporting.
- **FIX TM** handles post-trade allocations when entered via FIX (Financial Instrument Exchange) protocol.

OR or FIX sessions are the order-entry channels to enter orders on MX.
SAIL is SOLA Access Information Language, the native order and quotes management protocol for SOLA, the MX trading engine.
PTV SAIL enables pre-trade validation (PTV), which can check credit and position limits before trades are entered.
SAIL BQ (Bulk Quote) and **PQ** (global cancellation) connections are used by options market makers to quote and cancel orders on multiple options lines simultaneously.
TMX Connect Web PTV is a web-based interface to set up pre-trade validation via TMX Connect, the MX single sign-on system.
SAIL/FIX ATR is Automated Trade Reporting, a real-time feed of trades by approved participants.
Drop Copy is a historical report of messages sent to a market participant.
PAR is a Participant Activity Report, a combination of reports containing instrument lists, trade and post trade information as well as order information..
LOPR is the Large Open Position Report, a report that Approved Participants are required to make under certain conditions.
VPN is a Virtual Private Network connection for Post Trade Platforms or test platforms that do not require colocation inside TMX.
TMX Connect Tableau provides access to various participant activity dashboards via Tableau.
Protocol certification is a process to demonstrate that a participant's system can reliably communicate with the MX.
Private history retrieval is a request to retrieve private history older than a day.

Regulatory fees

Assessments for Approved Participants (APs), Foreign Approved Participants (FAPs), and Approved Persons

Fixed annual assessment

APs and FAPs	$20,000
Approved Persons	$125

Variable assessments, per contract per side, with fee caps for pre-arranged transactions with size above(crosses) and Auctions**

	Fee	Fee cap****
SXM	$0.01	
Share futures	$0.02	
Equity options***	$0.04	$200/leg
ETF options	$0.04	$200/leg
SXO	$0.04	
SXJ and SXV	$0.04	$400/leg
Currency options	$0.04	$400/leg
All others	$0.04	

* The $0.02 variable assessment for share futures will be assumed by the Bourse until further notice.
** Fees relating to Auctions apply to Equity options and ETF options.
***Including options on Canadian Depositary Receipts (CDRs) and options on Closed-End Funds (CEFs).
**** Fee caps apply to Client, Firm and Market Maker transactions

Participant terminology

Approved Participant	A member of the Montréal Exchange; a legal entity that has agreed to the Rules of the Bourse and has undergone an approval process (see Article 3 of the Rules, or this form).
Firm account	An account established by an Approved Participant or Approved Person and is confined to transactions executed on its own behalf.

Client account	An account established by an Approved Participant and that is confined to transactions executed on behalf of the participant's clients.
PDP	The Primary Dealer Program, a fee program for affiliated corporations of an Approved Participant that hold Primary Dealer status at the Bank of Canada. For information on joining, click here.
PTP	The Proprietary Trading Program, a fee program for legal entities that trade using their own proprietary capital for direct trading gains. For information on joining, click here.
LPS	Liquidity Provider Status, a product-specific discount given to participants in the PTP who demonstrate consistently high volumes in a product family.
Market Maker	Refers to an Approved Participant or a client of an Approved Participant who has been granted a Market Making Assignment in accordance with the Regulations of the Bourse.

Appendix

Customers within Canada are billed in Canadian dollars. All others are billed in US dollars.

Any billing document (invoice, transaction report, etc.) must be verified without delay. The Bourse must be advised in writing of any error or omission within thirty (30) days following the document date.

The amount of any invoice becomes due and payable thirty days following date of invoice. Any payment not so forwarded shall be subject to a late payment charge. The late payment charge shall be charged against the amount not so received multiplied by an interest rate of one and a half percent (1.5%) per month, or as otherwise mandated by regulatory or governmental authorities; but in no event shall the applicable interest rate exceed the maximum rate permitted under applicable usury laws.

All taxes, whether local, provincial, state or federal, business, property excise tax, or other governmental taxes will be added, if the case arises, to the above-mentioned fees according to the service offered.

1. Eligibility Criteria: To qualify for the Proprietary Trader Program, an applicant must qualify as a Proprietary Trader,as defined in the Application Form for the Proprietary Trader Program

2. Continued Qualification Criteria: Following acceptance into the Program, a Proprietary Trader shall:

    - have traded at least 15,000 cleared contracts per month, calculated as an average over the preceding three-month period, among any of the following Bourse products: CRA, COA, CGB, CGF, CGZ, LGB, SXF, SDV, SCG, SEG or SXM;

- remain in full compliance with the Proprietary Trader Program Terms and Conditions, as outlined the Application Form for the Proprietary Trader Program

For example, in a given year, if 10,000, 20,000 and 15,000 contracts are cleared in January, February and March respectively, a trader would be eligible to participate in the Program for April.

However, in a given year, if 2,500, 25,000 and 15,000 contracts are cleared in January, February and March respectively, a trader would not be eligible to participate in the Program for April.

Upon initial acceptance into the Proprietary Trader Program and for the first three (3) months, a Proprietary Trader will be deemed to be on probation. PTP rates will apply on any eligible products traded during this period to allow a trader to build up to the minimum volume requirement.

In order to continue benefiting from the PTP reduced rate, both conditions (Eligibility Criteria and Continued Qualification Criteria, as stated in points 1 and 2 above) must be maintained. Otherwise, the Proprietary Trader will be removed from the PTP Program.

3. Eligibility Criteria for LPS: Proprietary Traders are eligible to obtain LPS in certain Bourse products. LPS may be obtained in the following products for Proprietary Traders that have traded at least:

   CGB, CGF, and CGZ LPS - a combined aggregate of 50,000 cleared contracts across the CGF and/or CGZ contracts; or,

   per month, on average over a preceding three month period.

   Proprietary Traders do not need to apply separately for LPS status. Once admitted in the PTP program, Proprietary Traders are eligible for LPS, provided they meet the volume thresholds described above. A failure to maintain the volume minimum for a Bourse product set forth above will result in the removal of LPS from the Proprietary Trader in that Bourse product. LPS must be obtained in the applicable Bourse product in order to be eligible for LPS pricing in that Bourse product. Obtaining LPS in one or more Bourse products will not result in LPS in another Bourse product in which the eligibility criteria have not been satisfied. A trader must be a Proprietary Trader in good standing in order to be eligible for LPS. Please see the Proprietary Trader Program Terms and Conditions for further details.

MONTRÉAL EXCHANGE

List of Fees

Effective as of Jan 2nd, 2026

Fees for transactions per contract per side

Fixed-income derivatives

Equity options*	$0.43	$2150/leg	$0.16	$800/leg	$0.16	$800/leg
ETF options	$0.35	$1750/leg	$0.16	$800/leg	$0.16	$800/leg

Fees for pre-arranged transactions (crosses) with size above or equal to 500

	Client	Client fee cap	Firm	Firm fee cap	Market Maker	Market Maker Fee Cap
Equity options*	$0.43	$2150/leg	$0.16	$800/leg	$0.16	$800/leg
ETF options	$0.35	$1750/leg	$0.16	$800/leg	$0.16	$800/leg
SXJ and SXV	$0.25	$2500/leg	$0.25	$2500/leg		
Currency options	$0.50	$5000/leg	$0.25	$2500/leg		

***** Including options on Canadian Depositary Receipts (CDRs) and options on Closed-End Funds (CEFs).
[1] Terms and conditions for the Proprietary Trader Program (PTP) are in footnote 1 in the appendix.

Share futures (single-stock, ETF, and trust units) and sector index futures

Fee formula:	Multiplier x (Maturity date − trade date) / 365 x trade price x trading unit	
Multiplier for share futures		0.00032
Multiplier for sector index futures		0.00016
Maturity date:	Maturity date of the contract	
Trade date:	Date on which the trade is executed	
Trade price:	Price at which the contract is traded	
Trading unit:	Number of shares underlying one contract	

For share-futures transactions under 100 contracts, the fee is $0.16.

For share-futures trades of 100 contracts and above and for sector index futures, the transaction fee (per contract, per side) calculated using the formula above is rounded to two decimals. The difference between the maturity date and the trade date is the number of calendar days between them not including the maturity date itself.

Example computation of the fee

For a hypothetical share-futures trade of XYZ for 10,000 contracts, supposing the price is $50, the trade date is 1 June 2024, and the maturity date is 16 June 2024, the transaction fee per contract would be:

(0.00032 x (Jun16 - Jun01) / 365 x Trade price x Trading unit) =
(0.00032 x 15 days / 365 x ($50 per share x 100 shares)) = 0.06575

The fee, rounded to two decimals, is $0.07.

The total amount owing would be $0.07 x 10,000 contracts = $700.

Fees for technical services

Monthly fees per AP for service packages and allocations of services by package

Participant terminology

Approved Participant	A member of the Montréal Exchange; a legal entity that has agreed to the Rules of the Bourse and has undergone an approval process (see Article 3 of the Rules, or this form).
Firm account	An account established by an Approved Participant or Approved Person and is confined to transactions executed on its own behalf.

Client account	An account established by an Approved Participant and that is confined to transactions executed on behalf of the participant's clients.
PDP	The Primary Dealer Program, a fee program for affiliated corporations of an Approved Participant that hold Primary Dealer status at the Bank of Canada. For information on joining, click here.
PTP	The Proprietary Trading Program, a fee program for legal entities that trade using their own proprietary capital for direct trading gains. For information on joining, click here.
LPS	Liquidity Provider Status, a product-specific discount given to participants in the PTP who demonstrate consistently high volumes in a product family.
Market Maker	Refers to an Approved Participant or a client of an Approved Participant who has been granted a Market Making Assignment in accordance with the Regulations of the Bourse.

Appendix

Customers within Canada are billed in Canadian dollars. All others are billed in US dollars.

Any billing document (invoice, transaction report, etc.) must be verified without delay. The Bourse must be advised in writing of any error or omission within thirty (30) days following the document date.

The amount of any invoice becomes due and payable thirty days following date of invoice. Any payment not so forwarded shall be subject to a late payment charge. The late payment charge shall be charged against the amount not so received multiplied by an interest rate of one and a half percent (1.5%) per month, or as otherwise mandated by regulatory or governmental authorities; but in no event shall the applicable interest rate exceed the maximum rate permitted under applicable usury laws.

All taxes, whether local, provincial, state or federal, business, property excise tax, or other governmental taxes will be added, if the case arises, to the above-mentioned fees according to the service offered.

1. Eligibility Criteria: To qualify for the Proprietary Trader Program, an applicant must qualify as a Proprietary Trader,as defined in the Application Form for the Proprietary Trader Program

2. Continued Qualification Criteria: Following acceptance into the Program, a Proprietary Trader shall:

    - have traded at least 15,000 cleared contracts per month, calculated as an average over the preceding three-month period, among any of the following Bourse products: CRA, COA, CGB, CGF, CGZ, LGB, SXF, SDV, SCG, SEG or SXM;

- remain in full compliance with the Proprietary Trader Program Terms and Conditions, as outlined the Application Form for the Proprietary Trader Program

For example, in a given year, if 10,000, 20,000 and 15,000 contracts are cleared in January, February and March respectively, a trader would be eligible to participate in the Program for April.

However, in a given year, if 2,500, 25,000 and 15,000 contracts are cleared in January, February and March respectively, a trader would not be eligible to participate in the Program for April.

Upon initial acceptance into the Proprietary Trader Program and for the first three (3) months, a Proprietary Trader will be deemed to be on probation. PTP rates will apply on any eligible products traded during this period to allow a trader to build up to the minimum volume requirement.

In order to continue benefiting from the PTP reduced rate, both conditions (Eligibility Criteria and Continued Qualification Criteria, as stated in points 1 and 2 above) must be maintained. Otherwise, the Proprietary Trader will be removed from the PTP Program.

3. Eligibility Criteria for LPS: Proprietary Traders are eligible to obtain LPS in certain Bourse products. LPS may be obtained in the following products for Proprietary Traders that have traded at least:

   CGB, CGF, and CGZ LPS - a combined aggregate of 50,000 cleared contracts across the CGF and/or CGZ contracts; or,

   per month, on average over a preceding three month period.

   Proprietary Traders do not need to apply separately for LPS status. Once admitted in the PTP program, Proprietary Traders are eligible for LPS, provided they meet the volume thresholds described above. A failure to maintain the volume minimum for a Bourse product set forth above will result in the removal of LPS from the Proprietary Trader in that Bourse product. LPS must be obtained in the applicable Bourse product in order to be eligible for LPS pricing in that Bourse product. Obtaining LPS in one or more Bourse products will not result in LPS in another Bourse product in which the eligibility criteria have not been satisfied. A trader must be a Proprietary Trader in good standing in order to be eligible for LPS. Please see the Proprietary Trader Program Terms and Conditions for further details.
